

CAREER OPPORTUNITY No. BSS1904

Position Title : Specialist - Clinical Informatics X 1 FT
Department : Business System Support/Clinical Informatics
Start Rate : As per Job Evaluation
Position Available : 1/Sep/2019 **End Date:**
Hours : 37.50 **/wk**
Shift : Days

Our diverse staff is our most valued resource. Compassion, Integrity, Courage and Accountability are the values that set Michael Garron Hospital apart.

Position Overview:

The Clinical Informatics Specialist is responsible for leading and coordinating activities of an interdisciplinary clinical project team in the analysis, design, implementation, evaluation and support of clinical applications. This includes analysis of the structure and processing of health information for clinical decision-making and subsequent build that support systems to automate that processing.

Liaise with hospital and professional leaders and external partners as required to coordinate activities. Focus on supporting and assisting in the Redevelopment Project. Ensure implementation design decisions address cross functional needs and embody the principles of patient focused care and the standards of profession practice in the overall system architecture.

Education:

- Bachelor's degree.
- Formal Health Informatics preparation required.
- Current registration with applicable College as defined by the RHPA or other governing body.
- Information Systems Management Certificate or bachelor in Information Systems related discipline.

Specific project or team needs may dictate the following Educational requirements:

- Bachelor's degree in Nursing.□
- Master's degree in Health Informatics.□
- Health Records Administration Certification.

Qualifications/Experiences:

- Solid understanding of workflow and best practice guidelines in registration and clinical areas.
- Detailed understanding and working knowledge of Cerner system including the relationship to other information systems (e.g. Accounts Receivable and Coding systems).
- Previously experience with the implementation of clinical systems preferred.
- Clinical background, 5 years preferred.
- Strong technology foundations in systems design and analysis, systems development lifecycle, business process modeling, data modeling and database design.
- Solid troubleshooting, analytical and problem-solving skills.
- Understanding of HL7 interfaces.
- Demonstrated management/leadership skills.
- Ability to manage project milestones and deliverables using project standard management tools.
- Knowledge of process improvement methodologies and quality monitoring.
- Effective verbal, presentation and written communication skills.
- Strong people skills, team player, self-starter, motivated individual able to work with minimal supervision.
- Knowledge of patient confidentiality requirements and legislation.
- Current knowledge of applicable professional practices, accreditation standards, management and health care issues and trends and the legal implications of clinical applications.
- All employees of Michael Garron Hospital (MGH), a division of Toronto East Health Network (TEHN) [formerly Toronto East General Hospital (TEGH)] agree to work within the legislated practices of the Occupational Health and Safety Act of Ontario.
- All employees of MGH are responsible to contribute to a transparent culture of patient and staff safety by adhering to and abiding by patient and staff safety policies and procedures set by MGH.
- All employees are accountable for protecting the psychological health and safety of themselves and their co-workers through adherence to MGH's policies and practices.

Employees interested in the above position are requested to complete an Internal Application Form F-525 and submit it to Human Resources along with the most recent resume prior to the closing date and time indicated in order to be considered for this position.

Michael Garron Hospital fosters an inclusive and diverse work environment. We are committed to providing accommodations for applicants upon request at any stage of the recruitment process. Should you require an accommodation, please let us know how we can work with you to meet your needs.

CAREER OPPORTUNITY No. TRN1904

Position Title : Transition Navigator - 0.8 FTE X 2 TRFT
Department : Professional Practice
Start Rate : As per Paramed Agreement
Position Available : 1/Nov/2019 **End Date:** March 2020
Hours : 30.00 **/wk**
Shift : 8 hrs Days

Our diverse staff is our most valued resource. Compassion, Integrity, Courage and Accountability are the values that set Michael Garron Hospital apart.

Position Overview:

The Transition Navigator provides comprehensive, patient-centered transition planning for patients from hospital to the next destination of care. The Transition Navigator is a key member of the interprofessional team. With a focus on the provision of excellence throughout the transition process, the Transition Navigator builds collaborative relationships and strives to deliver an exceptional patient/family experience through the health care journey. The Transition Navigator begins the transition process on patient admission and develops a plan for a transition out of hospital that considers the needs of the patient from a: cultural; financial; social; and spiritual perspective. The Transition Navigator works toward a seamless and sustainable transition, while utilizing their knowledge and understanding of community resources, legislation as it relates to Alternative Level of Care (ALC), Substitute Decision Makers Act, Public Guardian and Trustee and the Public Hospitals Act to reduce patient length of stay and readmissions rates. The Transition Navigator provides education and uses teach-back methodology to ensure health literacy is embedded into the transition process, with follow-up discharge phone calls at regular intervals, to ensure a smooth.

Education:

- Bachelors degree in a healthcare field.
- Registration in good standing with relevant professional college.

Qualifications/Experiences:

- 2-3 years recent experience in hospital based acute care in a professional field required.
- 2 years recent experience in transition/discharge planning required.
- Working knowledge of community resources, LHIN Home and Community Care, long term care facilities, rehabilitation and palliative care facilities/programs required.
- Experience working with the geriatric population and medical/surgical patients required.
- Demonstrated knowledge and skills in transition/discharge planning, conflict resolution and creative problem solving required.
- Demonstrated working knowledge of legislation including the Substitute Decision Makers Act, Alternative Level of Care, Public Hospitals Act.
- Experience working with the Resource Matching and Referral system and electronic documentation systems.
- Demonstrated ability to prioritize multiple competing workload demands.
- Superior communication and negotiation skills.
- Demonstrated ability to provide resource identification, referral and linking.
- Demonstrated ability to work collaboratively as a member of an interprofessional team.
- Demonstrated ability to build relationships with internal and external partners.
- Demonstrated ability to prioritize and work effectively in a fast paced environment required.
- Demonstrated patient centered philosophy of care provision.
- Good work and attendance record required
- All employees of Michael Garron Hospital (MGH), a division of Toronto East Health Network (TEHN) [formerly Toronto East General Hospital (TEGH)] agree to work within the legislated practices of the Occupational Health and Safety Act of Ontario.
- All employees of MGH are responsible to contribute to a transparent culture of patient and staff safety by adhering to and abiding by patient and staff safety policies and procedures set by MGH.
- All employees are accountable for protecting the psychological health and safety of themselves and their co-workers through adherence to MGH's policies and practices.

CAREER OPPORTUNITY

No. WMC1902

Position Title : Nurse Practitioner - WMC1902 X 1 FT
Department : Mental Health Services
Start Rate : As per Job Evaluation
Position Available : 1/Apr/2019 **End Date:**
Hours : 37.50 **/wk**
Shift : 8 hrs Days

Our diverse staff is our most valued resource. Compassion, Integrity, Courage and Accountability are the values that set Michael Garron Hospital apart.

Position Overview:

The Nurse Practitioner in Withdrawal Management Services (NP WMS) has advanced clinical preparation at the graduate level in nursing with current RN Extended Class status and extensive clinical and leadership experience with change management to enhance quality care. The NP WMS is based in the non-medical WMS system, providing care at selected sites and change leadership expertise for all WMS programs operated by UHN, SMH, SJHC, and MGH. In addition to using expert knowledge in the delivery of care to patients, families and groups living with addictions, substance use or concurrent disorders, the NP role at WMS provides leadership for the development of system practices to enhance quality care. Clinical consultations will include assessments, provision of primary care, transfers to Emergency Departments, and referrals to other services - such as RAAM clinics to enhance continuity of care. The role will involve clinical collaboration with physicians and other health care providers, as well as system leaders regarding changes to enhance quality of care. The NP WMS will also oversee the Urban Telemedicine Initiative, promoting the effective use of this technology to enhance care through timely consults with the NPs as required.

This role will also serve as a lead and primary contact and consultant for TCLHIN system changes. The NP WMS will collaborate with hospital and WM center clinicians, as well as other community partners in process and care redesign as required, and represent WM at TCLHIN level committees.

Education:

- Registered Nurse with the College of Nurses of Ontario in good standing (extended class)
- Completion of a Master's Degree program in Nursing required
- Completion of a Nurse Practitioner (Adult) program required
- Completion of CNO-approved controlled substances course/program required
- Eligible for cross-appointment to an academic institution (preferred)
- CNA Specialty certificate in mental health an asset
- Current BCLS certificate required
- Member of CNPS in good standing, required
- Membership in RNAO/NPAO, an asset

Qualifications/Experiences:

- Minimum 5 years of clinical experience relevant to addiction services
- Demonstrated experience in shaping, leading and managing system change with multiple stakeholders
- Demonstrated in-depth expertise regarding clinical assessment and primary care needs of persons living with substance use, mental health diagnoses and disadvantaged populations, including homeless.
- Evidence of sound knowledge and skill with adult education techniques
- Demonstrated ability to work in a self-directed manner using well developed leadership, critical thinking, organizational and problem solving skills
- Demonstrated sound interpersonal, team development and conflict management skills and evidence of successful collaboration across agency boundaries
- Sound information technology and computer skills required (Microsoft office and electronic patient record), experience with developing data bases
- Flexibility to work occasional shifts and weekends to support operational need
- Excellent work and attendance record required
- All employees of Michael Garron Hospital (MGH), a division of Toronto East Health Network (TEHN) [formerly Toronto East General Hospital (TEGH)] agree to work within the legislated practices of the Occupational Health and Safety Act of Ontario.
- All employees of MGH are responsible to contribute to a transparent culture of patient and staff safety by adhering to and abiding by patient and staff safety policies and procedures set by MGH.
- All employees are accountable for protecting the psychological health and safety of themselves and their co-workers through adherence to MGH's policies and practices.
